STAY WARM AND DRY WITH THESE WINTER ACCESSORIES

It's no fun fumbling for your keys on a freezing cold day, or shivering in your car waiting for the engine to warm up. Plus, snow, slush and salt can mess up your Mazda's carpets. That's why Mazda offers some really handy accessories to help you glide through winter. They include:

MAZDA REMOTE ENGINE START

Allows you to remotely start your vehicle without unlocking it, so you can pre-heat the interior before you enter. "Quick-Stop" feature lets you keep your car running and locked even for quick stops. "Car Find" feature flashes the parking lights and beeps the horn so you can find your car quickly in a crowded parking lot. Works up to 800 feet away.

MAZDA ENGINE BLOCK HEATER

Plug in to an easier-starting car on cold winter mornings. A block heater gives your car a "head start" on the day...warming up the engine coolant which warms up the oil. Your Mazda not only starts easier, the warmer, thinner oil means there's less wear and tear on your engine.

ALL WEATHER FLOOR MATS

Protect your Mazda's interior from mud and snow. These durable, heavy-duty rubber mats have deep channels to trap water, road salt, mud and sand. Won't curl or crack even in sub-zero weather. Anti-ski ridges prevent shifting. Easy to clean. Charcoal black.
